"Calcareous concretions of peculiar lustre" is the coldly correct designation of the pearls that come into being within the shell of the oyster. Such pearls are truly born of pain, for each of them represents a particle of foreign matter that works its way into the bivalve's tender membranes, and there remains, a source of more or less violent irritation, until the creature, unable to reject it, seeks to lesson the irritation by giving the particle a pearly coat. Such is the oyster-made pearl."

COVER CROPS

It has been well demonstrated that an annual cover crop in Walnuts and Oranges is by far the most economical method of creating fertility. It will enrich the soil. It will loosen and aerate the subsoil. It will cause better water penetration. This all results in larger tree growth with bigger, heavier and cleaner fruit and nuts. We have Melilotus, Horse Beans, and Purple Vetch cover crop seed for sale.

LATEST MacLEAN COMEDY ONE OF HIS BEST

A mystery-comedy, sure fire, fast and funny, has been produced by Thomas H. Ince in his latest re-lease "A Man of Action" now showing at the West End.

Action is what the fans want— and action there is in plenty in his fast moving tale of mirth and mystery and romance. Here's a picture that chalks up one hundred per cent on every audience

JUST LIKE A WOMAN"

There have been many appearances of leading film stars in dual roles; also many histrionic expo-sitions of the dual personality oles. Both of these admit a great demand on an artist's versatility. However, there is another angle that is also something difficult to present successfully, and that is he artist who plays a real character and a masquerade character, making the change before the yes of the audience.

In "Just Like a Woman," the onight Marguerite De La Motte has been called upon to do just uch a thing. In this film drama Miss La Motte plays the role of Peggy Dean; who plans to teach er aunts a lesson after hearing of slur cast upon the name of her ead mother who was an actress. Peggy dresses as a missionary, goes to the Aunts' home to live, and forces them to give up most of the innocent pleasures which

he Aunts have enjoyed. The appearance of the missionary is greatly different to that of Peggy Dean. The expression likeise is entirely different. In order to impress the audience, and at the same time add a touch of realty to er part, requires a lot of tact and ability. Miss La Motte succeeds in loing this with perfect ease and t is readily understandable how audience can believe her abilto fool the other members of ne cast by this deception.
Other members of the cast are

eorge Fawcett, Ralph Graves, rank Glendon, Jane Keckley and lia Calhoun.

Family of Five Is Favored By Builder

SCHENECTADY, Nov. 19. — 'Hulett, of Schenectady." A heavyset grandfather, not a gray hair visible despite his fifty years, squinting pleasantly, engaged in the business of building homes for nobody except those who have five He can't read or write, but he

can build from 1800 to 2000 homes year. Hulett has three children and two grandchildren.

Hulett is his business name, and the way he thinks himselfhis first name is William—has been in business in Schenectady for sixteen years. He said today: "I think the census of these houses would show 10,000 children. You see, there must be five children to start on. That's in the lease, and the tenant has got to swear he has five or more-that's only the minimum

Bonus For New Babies "But I go 'em one better. For every child born in one of my houses after they move in, I cut \$2 off the monthly rent. In one house there are eleven children. One child will get rent free if they have another child before that time is up. My agreement is for

five years." Hulett's scheme has been workng so well that he is now getting out on another angle by taking a bill into the Legislature to forbid landlords refusing to let homes pecause tenants have children. His bill also provides for insurance for the property rented against damage by the children. He thinks this insurance can be purchased in the same manner in which liability insurance now

Patrolman Is Injured In Racing to Fire Box

SACRAMENTO, Nov. 19.-Patrolan A. . Taylor exhibited so much peed in running to turn in a fire larm that he dislocated a toe. Taylor saw smoke pouring out of the kitchen window of the home of his neighbor, W. Henderson, 3922 street, and made a dash for a nearby alarm box. He slipped and the toe injury resulted. The fire proved to be burning grease in a ton and J. F. Kaufman, San Diego,

We Sell Much More Than Furniture

OUBTLESS there are folks who think of furniture as only so much wood and varnish. How different here! We feel that the furniture we sell becomes a part of the lives of those who buy it—just as every piece represents a part of the lives of those who create it. Years of human happiness, of lives unfolded, of ambitions realized, of families reared, of generations completed—these things are in our thoughts when we send our furniture to your home. niture to your home.

Yale, Illinois, Cornell and Michigan Still Grouped In Select Circle

BY HENRY L. FARRELL (United Press Staff Correspondent)

NEW YORK, Nov. 19-Yale, Cornell, Illinois and Michigan still hold their heads high and lofty as the only unbeaten and united elevens in the esteemed fast company of

Like Notre Dame Syracuse is in exactly the same osition as Notre Dame-a very ne eleven with a record spoiled

one "off game" Yale, in covering Princeton with disaster, flashed one of the finest looking teams that has been seen in the east this year. Notre Dame against the Army and Princeton Tom Sharkey, Frank Fields had no more style or finish than Yale had in running away from

Old Yale grads heralded it as the greatest of all Yale teams but with enthusiasm curbed it does look like one of the best in years and one that would give any team in the country a terrible fight.

Bests Backs in Country

There is no doubt that Yale has,

in Richeson, Mallory, Pond, Neale, Neidlinger, Stevens, Bench and Murphy, the greatest backfield in the country. No one can recall a team that had, more backs in one season of such brilliance.

Cornell, still getting fat on white meat, beat Johns Hopkins 52 to 0 and increased its total points for Alexander, stumbling the season to 306. West Virginia is second with 294.

Villa Nova and City college of New York haven't scored a point this season. Kansas is the only major team in the country whose goal line hasn't been crossed.

SAN FRANCISCO, Nov. 19 key and Frank Fields, headliners teams cast everything else away to

Idaho. These victories left the two stage their fight at the new Berkeey stadium next Saturday.

For the first time in four years Stanford goes into the game conceded a chance to win. All the dope, however, favors California and the experts pick the Bears to chalk up another victory which will mean the fourth season they have passed through without defeat.

Yet Stanford has better than fighting chance. Saturday's game between Wash-

Chairman of Newport Beach Taxpayers League Sets Forth Qualifications Under Which Ballots May Be Cast

NEWPORT BEACH, Nov. 19.—In view of the allegations made by those in Newport Beach who favor the pipeline permit W. H. Burnham, president of the organization leading the opposition to the ordinance, today called attention to a following letter which he said had been sent to the members of the league. 'To recently Registered Voters:

'The Taxpayer's League of Newport Beach has been giving careful consideration to the legal phase of registration and voting in Newport Beach by part time residents. It is the desire of the League to avoid any question of illegality in such registration and voting. Information has been obtained from a number of attorneys, and the following statement seems to be the most correct that can be secured:

"Any person owning a home in the city of Newport Beach in which he spends a portion of the year, even though a minor portion, may make that home his legal residence by proper declaration of the fact. In making such a place his legal residence there can be no temporary intent, he must intend to make that home his permanent legal residence, and expect to re-register there in the new Grand Register of 1924, and continue voting in Newport Beach. Of course unforseen future occurrences do not enter into the permanency of such legal residence, it is merely a question of whether the registrant intends, in so far as he now knows, to make New-port Beach his permanent legal residence. This likewise applies to any members of the registrant's family.

"It is absolutely essential that property owners who desire to secure for their property the legal and political rights to which it is entitled, register and vote in Newport Beach; not only voting at the coming referendum but at all city elections which the future may bring forth. No property owner, however, who plans to register in Newport Beach solely to vote at the referendum election and then return to his former legal residence, can legally do so. Kindly bear in mind, therefore, that you are becoming a permanent resident of Newport Beach, if you would vote at the coming referendum,

and if you desire justice you must vote. "Those persons who cancelled registration elsewhere to register in Newport Beach cannot vote in Newport Beach if they voted within ninety days of November 20. In their former precinct if former residents of other counties than Orange, or 30 days if residents in Orange county."

State Law Prohibits Fraudulent Balloting In Special Referendum Election on Oil Pipeline Ordinance Tomorrow

NEWPORT BEACH, Nov. 19.—That state prison faces those who commit registration frauds or any person who attempts to vote illegally at the Referendum and Initiative election Tuesday, is shown by reference to the political code, thus:

"Every person who willfully causes, procures, or allows himself to be registered in any register of electors required by law to be made or kept, knowing himself not to be entitled to such registration, is punishable by imprisonment in the State Prison for not less that one nor more than three years." The same punishment applies to persons who cause any other person to be so registered. It is also a misdemeanor for any per-

son to refuse to be sworn or answer any pertinent question on the right of another to vote, put by the judges of an election board.

Any attempt to vote illegally is also dealt with thus: "Every person who wilfully violates any of the provisions of the laws of the state relating to elections is, unless a different punishment for such violation is prescribed by this Code, punishable by a fine not exceeding one thousand dollars, or by imprisonment in the

State Prosin not exceeding five years, or both.'

ANAHEIM, Nov. 19 .-- Improvement of the new site of the California Valencia Orange Show was started when corps of engineers inaugurated a survey of the land to determine the position of the huge tents that will house the fourth annual exposition.

The next move of the board of directors of the Orange Show will be to determine the theme that will be followed, and within the next few weeks they will start the campaign which is expected to bring record-breaking crowds to Anaheim next May.

From queries received at the Anaheim Chamber of Com-merce offices it is indicated that the number of exhibitors will be the largest in the history of the show and there will be a greater diversity of displays. It is believed that the same general plan of exhibits used at the last exposition will be followed at this show, except that a new mode will be adopted.

OPPORTUNITY ALWAYS

In an address to young men employed by the Rock Island railway the other day, President Gorman made this striking statement:

"There isn't a man among you who has not a perfect right and a prospect, before very long, of sitting on the other side of this table as one of the staff of officers. I say it because every man who does occupy a place of this kind on the Rock Island, at one time or another, was lower down in the ranks By which they mean that if a community is willing than any man who is in this room tonight.'

present who had been thinking that promotion was moted to a high degree. mighty slow and there was little opportunity ahead for them.

The situation depicted is not confined to one railroad nor to one industry. It is not at all uncommon in any field of American business life. Almost any observes how many of those holding important, highfive years.

There is no mystery about the process of such promotion. It is, as President Gorman reminded his needed to prolong years in health and efficiency. young men, mainly a matter of "buckling down to business" and forgetting self in pushing along the big work.

A celebrated American poem represents "opportunity" as coming but once to every man's door. That is false. Opportunity is knocking at every man's door every day, and every hour of every day.

ANCESTORS FROM ENGLAND

A small section in England, comprising not more than eight square miles, is said to claim the honor of having given the United States four presidents-Washington, the two Adamses and Harding. This area is a bit of Northamptonshire.

Washington's ancestral home has already been restored and set aside as a monument of good feeling between the mother and daughter countries. The Sulgrave Institution which took care of that has now purchased, for the same object, the ancestral home of John Adams and John Quincy Adams. It is placing a memorial window to Harding in the church at Sulgrave. In time it may do something about the ancestral homes of Benjamin Franklin and William Penn., also in that general neighborhood.

These places are objects of interest and pilgrimage to American tourists and are marks of the respect and good will of Englishmen toward our country. It is interesting that the restoration of Sulgrave Manor was undertaken in 1914 as part of the celebration of 100 years of peace between the two leading English-speaking lands. The war, and our association with England in that conflict, added inspiration to the understaking.

Nobel Prize Is Awarded

- Pasadena Star-News There has come to an eminent Pasadenan—Dr. Robert A. Millikan, of the California Institute of Technology-an honor in which all Pasadena share -the Nobel prize for physics. Pasadena shares this prize because this city attracted Dr. Millikan here to live and serve, and because here is situated California Institute of Technology, of which Pasadena is justly proud—an institution which is giving technical training of the highest excellence.

These and kindred achievements, which uplift and better mankind, deserve the encouraging attention of all who would help to advance the world toward the millenium. Through the toil of genius, through the perseverance of great souls, the way is blazed to higher, better, nobler things.

THE MOTHERS OF MEN They were the spinners of yester years,

Spinning with nimble hands The flax and the wool of the pioneers Into the sinewy bands; Watching the wheel with a skillful eye,

But turning now and then, To rock, with a wildwood lullaby, The cradles of our men!

They were the weavers of patterns rough, The cloth of our worthy sires; But, ah! they wove, with the linsey stuff, Fair dreams and fond desires-For they kept with rapturous tenderness Their softest fleeces, when They fashioned, back in the wilderness

The swaddling clothes of men!

And into the fabric so strong and fine, As spindles and shuttles flew, Was woven a pattern of rich design. And it made men brave and true-So brave that they dared the wrath of kings And the heights and depths defied, So true that they fought for sacred things Yes! fought till they bled and died,

And now the menders with loving hands, Unmindful of grief and pain, Must tenderly gather the broken strands And bind them together again. Mending the tangled threads here and there With a courage beyond our ken, To these be given the croix de guerre-
